國一甲 許 誠 指導老師:曾慰憶

My parents take care of me carefully every day. When I am hungry, they buy some food for me. When I am ill, they take me to clinic. When I am blue, they console me and make me happy. I thank Dad and Mom the most.

One day, my legs hurt by volleyball. When my mom heard that, she bought me some medicine directly and helped me to rub it. It made my leg more comfortable. My parents also took me to Douliu to see a doctor. Although from here to Douliu needed at least an hour, they still took me there twice a week. Now, my legs are healthy.

I think this is all attributed to my parents. I am so glad that I have great parents. They are the most grateful people in my life.

## **The person that I want to appreciate most is my grandpa**

國一甲 彭好蓁 指導老師:曾慰憶

There is always somebody taking care of me. He is just like the angel who protects me from danger and grows me up. When I lose, he will inspire me. When I am in a bad mood, he takes me away from that.

“He” is the man who I love very much-----my grandfather. He is the kindest person in the world. Also, he loves me tenderly. We do many things together, such as jogging, chatting, watching TV , shopping..... But these aren't enough to show our love.

Several years ago, I was still a little girl. “Mango” is my favorite fruit. One stormy night, I asked my grandfather to buy some for me. Therefore, he went out by bike. I thought everything is OK. But when he got home, I found his clothes were wet. At that time, he was smiling at me. In my heart, I appreciated him very much.

My grandfather is just like my teacher, my friend, even my valentine. However, he is the best grandpa I have ever had.

## **Giving Thanks**

國一乙 陳穎萱 指導老師：林金花

I want to give thanks to my mother. She gave birth to me, and she almost does everything for me. So I can go to school, study hard and learn a lot. She always takes care of me well whether she's sick or not. She is a good and beautiful woman, and she is the person who gives the most love. I want to tell her that I love her so much, and I really appreciate what she does for me.

## **Giving Thanks**

國一乙 許家竣 指導老師：林金花

Everyone has a person that cares about you. However, did you ever say "thank you" to the person? Probably not. Giving thanks to the person is very important because he or she helps us a lot of things.

For example, among the people who help me a lot, I would like to thank my parents because they work hard to raise me up; then it makes me feel warm very much. Besides, they listen to my worries and give me some advice. I love them so much, and I appreciate what they have done for me.

Most people welcome the coming of Christmas. When I walk on the streets, every shop puts a lot of decorations in the Christmas trees. Along the roads are beautiful lights. How wonderful it is! I enjoy the atmosphere of Christmas very much.

Why do I think Christmas is important to me? It's because my birthday is two days before Christmas. So Christmas becomes my favorite festival in a year. In the past years, my birthday and Christmas were celebrated together. I hope my coming birthday will be a great celebration, too. I can't wait for Christmas to come!

On last Christmas, my family planned a special surprise for me. My brothers and sisters were all very excited. At that Christmas Eve, we played some games and had a lot of fun. We also took many photos together. All of us had precious memories.

## **What Thanksgiving Means to Me**

國二戊 熊芊瑜 指導老師：周稚岡

Every last Thursday in November is a special day. People call it Thanksgiving Day. Some Americans think Thanksgiving is more important than Christmas. On that day, all the people enjoy a meal with their family. Thanksgiving Day in America is a good time to express thanks. Though it is not a holiday in Taiwan, I think we should be grateful all the time. At this moment, I would like to show my gratitude to the important people around me. Thank you, my dear teachers and my lovely family. I cannot grow so well without your care and concern. I will be a good student and a considerate daughter to pay back everything you've done for me.

## **Thanksgiving Day**

國二戊 陳蕙婕 指導老師：周稚岡

Thanksgiving falls on the fourth Thursday of November, a different date every year. Thanksgiving is a time for sharing. In America, even for those who live far away, they still gather for a reunion with their family members. People give thanks together for the good things that they have. Although Thanksgiving is a western holiday and not so popular in Taiwan, I still learn some spirits from it. Most of the time, I stay at school and only come back home on weekends. Therefore, I cherish every moment spent with my family. Every time when I go home, I would say thank you to my parents. I believe it's their love which supports me through all the difficulties in my life. When I laugh, they laugh with me. When I cry, I comfort me all the time. I believe every day can be Thanksgiving Day. Thank you, Dad and Mom. I love you so much.

## **A Letter of Thanks**

## **A Thankful Heart**

國二己 林映辰 指導老師：周稚岡

Thanksgiving is coming soon! We are supposed to express our gratitude to others on Thanksgiving Day. However, we should feel grateful all the time. At this moment, I would like to say thank you to my best friend, Annie.

It's she who practices speeches with me. It's she who teaches me to be a brave girl. It's she who gives me love and happiness. It's she who accompanies me whenever I feel happy or sad.

I cannot imagine life without her, and I would like to say thank you to her. Now I think the best way to express my gratitude to her is to cherish every moment I spend with her. May our friendship last forever.

## **Indebted Heart**

國二己 陳逸涵 指導老師：周稚岡

Last week our music teacher shared a good song with us. It is named Indebted Heart. I know that we should live with a thankful heart. At that time, I thought of my best friend, Alice.

I think she is the first person I should thank. It's she who can make me happy. It's she who helps me when I encounter difficulties. It's she who shares good things with me. It's she who does homework with me. It's she who gives me good memories.

Maybe I should think how to pay back everything she does for me. But now I think the best way to be appreciated of Alice is to say thank you to her.

## **Indebted Heart**

國二己 蔡雅名 指導老師：周稚岡

When people speak of Thanksgiving Day, the lyrics of a song will come to my mind. It is called Indebted Heart. This song teaches me to live with a grateful heart. Whenever I listen to this song, I think of my parents. I think they are the first people I should thank.

It's they who take care of me. It's they who give me a warm family. It's they who have protected me since I was little. It's they who make me happy. It's they who give me an interesting and meaningful life.

I should think how to pay back the love my parents give me. Now I think the best way to thank my parents is to study hard and be a good daughter.

It's he who guides me when I need help. It's he who encourages me at all times. It's he who always comforts me when I feel sad. It's he who teaches me to live with a thankful heart. ## Happy Teacher's Day

國三甲 林邵儀 指導老師：戴筱音

Mrs. Wang is my homeroom teacher, she always accompanies and takes care of me and my classmates, and I think she is just like our parents. Mrs. Wang is a geography teacher; she usually shares some foreign interesting attractions with us in class. Teaching every student carefully, she never gives up on anyone. Instead of complaining that she is tired, she always teaches us with smile every day. Mrs. Wang's carefully teaching got praise from many other teachers. I think she is really a terrific teacher.

Although sometimes Mrs. Wang is very serious, I believe that she has spent a lot of time on us. It is because of her consideration and patience so that we could become an excellent class. Beautiful years have gone by fast, and I only have another year to graduate. I hope to have a great teacher in high school, too. In this special day, I want to appreciate Mrs. Wang's teaching. I will never forget her. All the students in our class wish all the teachers a Happy Teacher's Day!

## The Most Influential Person In My Life

國三甲 鄭淑文 指導老師：戴筱音

Some people say that parents have the greatest impact on their children, but I think it is our teachers. Teachers spend almost their whole day in school with us. They share with us not only their knowledge but also their character and ways of doing things in life. Teachers are like water, moisturizing every seed and hope them thrive happily no matter they will become a weed or a tree.

The most influence person in my life is my homeroom teacher; she is a woman with long brown hair. She is tall and has slender legs; she also teaches us geography, she is Mrs. Wang. Mrs. Wang always concerns about us silently, teaching us a lot of knowledge even after classes. If I have a problem, she will take the trouble and solve it. Mrs. Wang is just like our second mother, and the school is like our second family. Nowadays, to enter a higher school in our country for a third grader in junior high like me, we have a lot of pressure. Taking exams every day and many problems in life come one after another, our parents also under a lot of pressure. This makes Mrs. Wang spend more time with use. Teachers are really hard-working. I want to say thank you to all the teachers, especially to Mrs. Wang.

## **The Teachers' Day**

國三丙 劉濡瑜 指導老師:呂艾淇

"Only the educated are free," said the Greek philosopher Epictetus, and little has changed today. Nothing is more valuable than a good education. However, no one can get a good education without good teachers. Luckily, I have a very kind teacher who takes good care of me. Miss Yu understands the subjects she is teaching, and explains these clearly to students. She is patient and creative, and enjoys teaching. She always makes students want to learn, and makes them enjoys being in the classroom. I am lucky to have a teacher who does all these things. With my teacher's love, I am on the way to a good education.

On Teachers' Day, children show thanks to their teachers in many different ways. Some may make beautiful cards and draw pictures of their teachers. Many may send presents and flowers to their teachers. I will show my love to my dear teacher on the special day. How about you? Don't forget to show your gratefulness on this special day.

## **Moon Festival**

國三丁 李沛蓁 指導老師:黃美瑛

Moon Festival is a national holiday and everyone can have a two-day holiday to take a rest. Moon Festival is a special festival which falls on the fifteenth day of the eight lunar month. Moon Festival is an old myth about Wu Gang logging. I love this festival a lot. I have two reasons to like the day.

Firstly, every year, when the festival comes, people go home from every corner of the country and the world to meet their family and have BBQ with their family. I believe a full moon is a symbol of family reunion.

Secondly, Moon Festival is that the summer ends. When the weather is cool, we can eat moon cakes to stare at the moon. It is time to get together with my family and to share something happened. This is why I love the festival.

## **Teacher's Day**

國三丁 吳坤益 指導老師:黃美瑛

Teacher's Day is on September 28. Teachers play important roles in my life. Every year, Teachers' Day is a day to honor and remember our teachers who are our leaders and who guide us in our education during our youthful days. So, We can make cards or buy some flowers for our respectable teachers. You can also give a hug to your teachers.

When we have problems, teachers always help us to deal with them carefully. Hence, teachers are just like our parents. She takes care of us when we are in need. As a result, teachers play a very important part in the development of a child. However, their efforts are seldom appreciated. That is why Teachers' Day is so significant to teachers. Therefore, don't forget to say "thank you" to the great teachers.

## **Teacher's Day**

國三丁 李芳綺 指導老師：黃美瑛

Teacher's Day is on September 28 every year. Why is Teacher's Day on Sep. 28? Because the Confucius' Birthday is on this day. One day every year, we celebrate Teachers' Day in honor of the teachers who spend so much time teaching us so many things.

Teachers are very important in my life. Teachers help us strive for goals, and give us model roles. At times, when we are ill, teachers also take us to the doctor. Teachers pay with no regrets just like our parents all the time.

All in all Teacher's Day is a great day. It is time to appreciate the teachers. If you want to make this day special for your teachers as well, try to make cards for teachers, highlighting their importance on the life of students.

I'm a junior high school student, and I study in Yangtze High School, located in Huwei township in Yulin county. My school is a beautiful place which has good teachers, good students and good learning circumstances. Besides, it supplies us with delicious meals.

Walking around the campus, you can see friendly teachers and students here and there. That's the main reason why I fell in love with the school at my first sight.

Even though the school is small, the staff try their best to satisfy what we student need in learning. It is so touching for me to study in such a cozy school.

For me, this beautiful campus should be an unforgettable part of my life in the future. I am proud of my school, Yangtze High School.

My school, Yangtze High School, is a beautiful school which contains many beautiful things, such as flowers, trees, patient teachers, friendly students and so on.

Recently, our campus is getting more and more beautiful. Why? I think that is because of the members of our new school board. They keep putting many efforts to improve our learning circumstances. Thus, our campus has become more and more vigorous.

As far as my school is concerned, I think everything here is really great. The surroundings inside the school are tidy and neat. Every time I feel tired and tressed out, I will walk around in the campus. By doing so, I always feel relaxed and refreshed.

However, it's a pity that I will graduate form Yangtze next year. I won't have chance to appreciate all the beautiful things so closely anymore. Although I feel a little bit sorry and disappointed, I am srue that I will keep all these good old things deep in my heart.

I study in a beautiful school, which is located in Huwei, in Yulin county. Its name is Yangtze High school. It is named after the Yangtze River in Matinland China. That is because the founders of the school want the life of the school can last forever.

Entering my campus, you will see some trees along the wayside and two big basketball courts. Every time I get into my campus, I feel happy because the environment of my campus makes me feel relaxed. There are not only some trees but also some beautiful flowers in my campus. Because of them, we can see more butterflies and birds.

Due to the efforts of the staff of the school, my campus has become more and more beautiful. What's more, the teachers are kind and they always help us to solve our problems. My classmates are all friendly to each one another. We discuss our homework, exercise and play together. No matter what happens, our class is always full of joy. I think it is one of the reasons why I like to go to school.

The word "beautiful" isn't just an adjective to describe the appearance of something. It also stands for the content of something. Campus is not only a place for us to study but also a paradise for us to grow up. I love my campus because it is filled with our wonderful and joyful memories!

In my opinion, Yangtze is one of the most beautiful schools I have ever seen. It isn't a magnificent place that is like a palace or a castle; however, it has not only a harmonious environment which is suitable for learning and study, but also a pleasant place filled with vitality.

Walking into the campus, we can first see a field of grass with a pavilion and some tall trees. Listening carefully, we might hear birds twittering or leaves rustled by wind. Then, we can see most of the buildings painted in white and blue. It is the new style of Yangtze high school. Maybe it is a sign of neatness and purity. It goes well with the surroundings of our school. What's more, it also appears on the new uniforms of the students.

Besides, we can find genuine but invisible beauty in class. Inside the classroom, students are learning something from teachers. Perhaps they are about philosophy of life, skills in academics and art, how to keep our health and so on. Every student works hard and encourages one another to learn positively.

So far, Yangtze is getting better and more beautiful. Of course, it is up to everyone at school to do his or her best for the school so that Yangtze High School can make more progress.

Recently, our campus has kept changing. It has become more beautiful than it was before. First, it is the environment that has changed the most in our school. Our school, Yangtze, has already been around for over 50 years. However, it still gives a vigorous feeling to people who visit it. That is because of the new paint. The blue and white paint blends an exotic atmosphere into the campus. Besides the paint, the trees are also a great view in our campus. Everytime I feel tired, I will leave the classroom and take a look at those trees. It is always relaxing to me. I like to do this in the afternoon, especially. The leaves of the trees glitter under the sunshine, making a breathtaking picture.

In addition to the natural scenery, there are many differences in the classrooms. We have new curtains, new windows, new fans and many other new stuff. These changes make our circumstances better; therefore, all the efforts improve our learning quaility.

Aside from the sourroundings, people are also one of the crucial elements of a beautiful campus. Nice teachers and friendly classmates form an ideal learning atmosphere. When we students encounter difficulties in learning. Patient, namiable teachers are always available in my campus.

My campus is so beautiful. How about yours?

School is a meaningful place. For one thing, it's a place full of laughter, joy and knowledge; for another thing, it's a place to help us develop precious memories; for the other thing, it's also a place with beautiful scenery.

My school, Yangtze, is located just near by the highway. Outside our school, there are often a lot of cars passing by; however, the inner looking of our school is totally different from what it looks outside. My school is small but delicate. There are various plants in our campus so that we can make the surroundings more colorful. In my mind, every tree and flower keeps a smile on their faces. Besides, our buildings are painted white and blue. By doing so, it can not only help our school look bright and neat but also make us refreshed and energetic. With these changes, our school isn't boring or monotonous anymore; conversely, it has become a place that we can't wait to visit every day.

As far as I'm concerned, not merely the environment of our school but also the friendship between my classmates and I is beautiful. During the three years of junior high school, we keep fighting for our goals as a team. We help one another and study hard for our bright future. I would never forget these precious and valuable memories.

Nonetheless, there are still many other things that should be improved. For instance, we should remove old buildings and get rid of uneconomic trees and so on. Therefore, I sincerely request our principal to solve the problems I mentioned above. By doing so, Yangtze may be one of the most beautiful and ideal junior high schools in Taiwan.

I'm a junior high school student. My school, Yangtze, is located in Huwei Township in Yulin county. As you arrive the gate, you'll see the logo which stands for our school. Entering our campus, the basketball will be on your right side. Then, keep going straight, and soon you'll get to the main buildings. There are four buildings in total, two for the students and two for the teachers and the staff. They are lined up like a square. All the classroom and the offices are inside the buildings. We often have gatherings inside the square.

It's believed that beauty exists everywhere in the campus as long as you have an eye for it. The main colors on the walls around the campus are white and blue. It seems like that we stay in the resorts or visit the tourist attractions in Greek. What an exotic atmosphere we have inside the school!

There are also many beautiful green plants in the campus. In spring, the flowers are in bud; however, the flowers are in blossom as summer arrives. Besides, there are many artificial sets in the garden, making our campus more elegant. I like the small garden with a pond. After a tiring day after school, I like to sit on the bench, watching the fish swimming happily in the pond. It always makes me feel relaxed and refreshed. The most interesting place I like to visit in the campus is the library inside the girls' dormitory. Even though it is not big, I can enjoy reading books silently there.

Aside from great learning circumstances, advanced studios and several science laboratories, we have not only caring and patient teachers but also helpful and friendly classmates. Thus, I can say that we are blessed. Therefore, we should show our great perseverance in learning to cherish what we have.

As we all know, the most beautiful campus in Taiwan is located in Huwei Town, Yunlin County. The school is called Yang-tze. However, most people might not know Yang-tze wasn't pretty at all before.

The campus did not catch my eye until two years ago when a new handsome board purchased Yang-tze. Since then, Yang-tze has started to go through an extraordinary journey. First, he rebuilt the running track and the windows. Second, he bought lots of electronic devices for us, such as air conditioners, lighting bulbs and so on. Third, he also installed loads of software to make students have more interest in learning. Most importantly, he planted a lot of trees and flowers so that we can breathe comfortably and feel refreshed. Besides, he also put many decorations in the campus in order to beautify our school. In the long run, we have been enchanted by the marvelous change in the campus, and our moods are getting more and more terrific.

Thanks to the new board, our campus has become more and more gorgeous. We students really appreciate his contribution. Besides, we will cherish our school resources to develop a wonderful learning environment and become a more beautiful campus.
